### **Quarterly Progress Report for Fourth Quarter 2001**

## Description of the work completed

Based on analytical results from samples collected at SWMU #17 during September, additional samples were collected. A total of six additional borings were located to the north, west and south at SWMW #17. The work at these step out locations was conducted on October 15.

Fourth quarter sampling of the monitoring wells at SWMU #17 and the Former Fabrication Operations Facility was conducted in October. Sampling was conducted again in December at SWMU #17 to obtain a fourth set of data for 2001.

### **Summary of all findings**

Laboratory analysis of samples collected from SWMU #17 will be presented in a report to be submitted by January 25, 2002.

#### Summary of all problems or potential problems and actions taken to rectify problems

None

# Projected work for the next reporting period

Complete and submit a report for the work conducted at SWMU #17.

Begin the pilot study at the Former Fabrication Operations Facility upon receipt of an injection permit.

## Instances of noncompliance with the corrective actions of the permit
